New, APR Plus with CBD

"pain actually left after she rubbed APR on my back"
Austin, N.J.

There are many uses for APR. One of the most common is to help relieve pain.

The formula helps the body to heal itself by helping to increase circulation and it helps to activate endorphins which reduce swelling and promote healing.

APR's deep penetrating action helps soothe and give relief from arthritis pain, leg cramps, and back and neck pain.

Other uses for APR include: Headache relief, bug bites, cuts and scratches, hemorrhoids, snoring relief, sunburn, sinus & hay fever, and is an effective stimulant for diabetic feet, and relief of cramps.

APR is like aspirin, we don't understand completely how it works, all we know is that it does. It's often called "First Aid in a Bottle".

New 4 oz. pocket size APR & APR plus with CBD and FREE APR sample, are all now available

Finally, you can enjoy the therapeutic benefits of Florida's Best APR with CBD oil! CBD is a powerful anti-inflammatory, which makes it perfect for people recovering from surgeries, injuries, or more chronic inflammatory conditions. Numerous medical studies and reviews have concluded that hemp CBD oil is effective and safe for treating pain and inflammation, as well as managing chronic ailments associated with pain. *CBD stands for cannabidiol, an organic chemical with powerful therapeutic qualities studied as a new drug, and CBD Oil for chronic pain relief is widely being used.*

We only use high-quality full-spectrum CBD oil, which means it is a natural version of the hemp plant resin that has not been chemically altered. All of the pain-relieving compounds found in the hemp plant are present in our formula. This lotion contains less than 0.3% of the chemical THC, which is what causes the "high" associated with marijuana. That means anyone can enjoy our product, without feeling any dizziness, discomfort, or experiencing the addictive properties associated with pharmaceutical opiate painkillers. No side effects or withdrawal. Just safe, gentle, and fast acting pain relief.
